P. A. just-jams-joy against your palate!

No matter whether you pack your old jimmy pipe brimful or roll a makin's cigarette, Prince Albert certainly will make you feel like a two-year-old on the tobacco question just as soon as you hitch it up to a match. And that's a fact!

You can't anymore tell how good P. A. is just from talking about it than you can judge the depth of a well from the length of its pump handle. You get personal information dug right out of a tidy red tin or topsey red bag quick as you can conveniently beat it to the nearest shop that sells tobacco!

No matter how much you think you can't smoke a pipe, or roll a makin's cigarette, no matter how much you have been tongue-scoured, you can smoke a pipe or roll a cigarette if you'll take a few grains of faith and believe in Prince Albert. It can't bite your tongue and can't parch your throat, because the bite and the parch are cut out by a patented process owned exclusively by R. J. Reynolds Tobacco Company.

No other tobacco can be like Prince Albert. You'll get the quick cue on that!

Gather round here a minute!

First thing you do next, buy some Prince Albert and have a party. Get chummy with it in the tidy red tin and you'll mighty soon graduate to the crystal-glass pound humidor that's a thing of beauty and a joy forever. It keeps Prince Albert at the high top-notch of perfection—and keeps you jimmy pipe joyous and cigarette makin's happy!

ODEM SAYS LOCAL COMPANIES SHOULD DRILL OIL WELLS

SAN PATRICK LAND OWNER TELLS OF METHOD ADOPTED BY SINTON PEOPLE

We are Hungry for Oil and We are Going to Get it by Going After It," Says Dave Odem

Dave Odem of Sinton, one of the men of this section who have been most interested in development of oil and who owns large tracts of land in San Patricio county, believes that the method for the people of Corpus Christi, Aransas and Kingsville, as well as other sections, to pursue in "getting oil" is to drill the wells themselves.

In an interview given yesterday to the Corpus Christi Caller and Daily Herald, Odem said: "The Middlebrook well in the 4th acre of the 160-acre tract owned by Mr. Hamilton of Sinton City is now down 120 feet. This well has been in operation about 30 days. The well on the 4th acre owned by D. & H. E. Oden in Corsicana, Texas, is now down 100 feet. This well has been in operation about 15 days. The Guffey well number one has been in operation about four months, and is now down, according to reports, 2100 feet, with no prospect of proceeding further on account of accidents in drill pipe, etc."

"I was on the committee which succeeded in having the White Point Oil & Gas Co. drilling in the Guffey wells, on which well number one is in the 4th acre and was very successful in the early development of the White Point field by the Guffey people, but having only a stockholder and neither an officer nor director of the White Point Oil & Gas Co., therefore do not feel bound upon to investigate the cause of the numerous delays in well number one, being drilled on the White Point Oil & Gas Co.'s tract."

"For the reason of these delays, I have lost all interest in that portion of the land from the White Point Co. to the Guffey people, and now expect to see the Corpus Christi oil field fully developed by one of the following companies: the Guffey well number two on the Drummond lease, the Woe Co. Oil Co., known as the Middlebrook well on the 4th acre owned by Hamilton and associates; the Corsicana Petroleum Co. on the 4th acre owned by D. & H. E. Oden; or by some of the other wells on leases other than the land owned by the White Point Oil & Gas Co., to the Guffey people."

"Now as to the Pat Weller Oil & Gas Co., which was organized for the purpose of drilling in the Guffey wells, it is a secret between the Guffey people and the Guffey people, and the Guffey people are now in place and an order placed three weeks ago with a Corpus Christi firm for two carloads of drill pipe and casing—the delivery of which was promised within two weeks."

As soon as the Guffey people, drilling well number one, will be able to drill the second well, the Guffey people will be able to drill the third well, and so on, until the Guffey people are able to drill the fourth well, and so on, until the Guffey people are able to drill the fifth well, and so on, until the Guffey people are able to drill the sixth well, and so on, until the Guffey people are able to drill the seventh well, and so on, until the Guffey people are able to drill the eighth well, and so on, until the Guffey people are able to drill the ninth well, and so on, until the Guffey people are able to drill the tenth well, and so on, until the Guffey people are able to drill the eleventh well, and so on, until the Guffey people are able to drill the twelfth well, and so on, until the Guffey people are able to drill the thirteenth well, and so on, until the Guffey people are able to drill the fourteenth well, and so on, until the Guffey people are able to drill the fifteenth
